## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1 and 3-32 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 19, the examiner agrees with the applicants argument that the pertinent prior art fails to teach or suggest a multi-tool device with a digging tool rotatably mounted on the hatchet and the digging tool overlaying the compartment containing the hatchet.

With respect to claim 16, the pertinent prior art fails to teach or suggest a multi-tool device with a plurality of compartments with a cutting tool removably mounted in a first compartment and a flashlight held in a second compartment.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Petrich (US Patent 5,771,588) teaches a folding ax with a hatchet rotatably mounted and a digging tool.
